

Colin Rumney—Intern

I was born and raised here in Fort Collins. I actually lived in a small town north of here called Bellevue. My parents, Rich and Linda, have lived here now for 21 years. I have an older sister named Kelsey who has Down Syndrome. I am currently going to Front Range Community College for my General Ed.'s I then plan to transfer to UNC and pursue a job in teaching middle school.

I started coming to FBC in 2007 as a sophomore in High School and have just fallen in love with Jesus and the community here more and more every week. I am excited to see how god uses me and the other interns this year and look forward to challenging myself spiritually and mentally. It' such an amazing opportunity I have been blessed with and can't wait to see what god has in store for me!
